Don't Panic, Take A Seat in One Seat. Your Entire Treatment Process is Under Control A stress-free treatment process, fast permanent solutions and all services under one roof. This is not a dream! With Cliniqua Dental World, all kinds of aesthetic prostheses and painless surgical procedures are waiting for you along with 360-degree care and treatments of tooth loss, damaged teeth, tooth crowding that causes you to hide your smile and gum diseases. Moreover, with permanent and successful results accompanied by Specialist Dentists.

AESTHETICS AND PLASTIC SURGERY

Deals with plastic surgery, aesthetic and reconstructive surgery [renovation surgery]. Cosmetic surgery reshapes the normal body structures and develops the appearance of the individual and his perception of himself.

Reconstructive surgery is applied on abnormal body structures that were formed in connection with the birth or those that have appeared afterwards, and its initial purpose is to recover the functions of the body structures that are affected as much as possible.
